RE: Submittal of Information for the HPV Challenge Program

Dear Ms. Whitman:

As part of our agreement to participate in the HPV challenge program, PPG is pleased to submit the test plan for Propanoic acid, 2-hydroxy-, compound with 3-[2-(dimethylamino)ethyl] 1-(2-ethylhexyl)(4-methyl-1,3-phenylene)bis[cabamate](1:1) (CAS NO. 68227-46-3). A sanitized copy of this letter is being included for publication as the company-chemical linkage information is being claimed as CBI.

If you have any questions, please do not hesitate to contact me at 412-434-2801.

Sincerely,

James A. Barter, Ph.D.
Director, Environmental Health Sciences & Toxicology
